

## Assignment C: Culminating Essay

**Divide into small groups to discuss questions and thoughts about the devices used in modern art to express relativity of human perception.**

- Ambiguity
- Symbolism
- Layered, fragmented, and/or "cubed" constructions
- Surreal images

**Choose a device and explain why it could serve as an effective way to articulate relativity of human perception and activate the relativity of response in the consciousness of the "receiver" of an arts experience. Support your explanation with specific examples.**

**Save your written responses. You can redevelop them after you have expanded your knowledge of modern art themes and forms.**
