

## Creating a Madrigal

---

Follow these steps to create a madrigal:

1. There should be three players in your group. Each member of the group should have read a different "Cinderella" story.
2. Each player selects a phrase or a line from the "Cinderella" story that he/she read.
3. Player 1 sings his/her phrase through twice.
4. Player 2 does the same.
5. Player 3 does the same.
6. After all three lines have been heard; the singers weave words and phrases in and out of each other's lines, to create new lines.
7. If you need help, listen to or look at the Prologue to *Into the Woods*. Try using tunes you already know, like nursery rhymes, commercial jingles, or classical or pop songs.
8. Record the final product (so you know what to do); you will sing it to your classmates.
